
Journal of SMET Education: Innovations and Research Advertising Information

We welcome advertisements from companies, individuals, and academic institutions. The journal has a wide circulation among both 4-year and 2-year engineering, science, mathematics, and technology institutions. It is an ideal medium to reach this market about conference announcements, books, company products, and professional services.

For more information, please email sales@e-technovations.com and/or check our web site:

Upcoming Events of Interest to SMET Educators

Bringing Theory and Practice Together in Engineering Classrooms, May 11-13, 2000, Auburn University

Conducted by: Laboratory for Innovative Technology and Engineering Education (LITEE), Auburn University

Sponsored by: National Science Foundation

A workshop for engineering faculty interested in developing effective strategies to prepare students for real-world problem-solving situations and train them in team building, interaction, and interdisciplinary skills.

Engineering Education through Case Studies, 2000 ASEE Annual Conference and Exposition, June 18, 2000, St. Louis, MO

Conducted by: Laboratory for Innovative Technology and Engineering Education (LITEE), Auburn University and SEATEC (South East Advanced Technological Education Consortium)

If you are looking for new methods to invigorate your classes and show the relevance of theory to design and practice, this workshop is for you.

Bringing Real-World Issues into the Engineering Classrooms, The 2000 Frontiers in Education Conference, October 18-21, 2000, Kansas City, MO

Conducted by: Laboratory for Innovative Technology and Engineering Education (LITEE), Auburn University

The instructional materials to be used in this workshop received the 1999 ASME Curriculum Innovation Award and 1998 Premier Award for Excellence in Engineering Education Courseware sponsored by John Wiley & Sons, and NEEDS.

International Editorial Review Board Members

Chi Anyansi-Archibong, North Carolina A&T University, NC

James L. Barott, Chattanooga State Technical Community College, TN

Lisa Bogaty, Pellissippi State Technical Community College, TN

Gay Bryant, Pellissippi State Technical Community College, TN

William Call, Murray State University, KY

James Camerius, Northern Michigan University, MI

James Erskine, Western Business School, Canada

Krishna Krishnamurthy, United States International University, CA

Mel Montgomery, Jackson State Community College, TN

Elisabeth Mathias, Johns Hopkins University, MD

Van Muse, Auburn University, AL

Vijaya Narepareddy, University of Denver, CO

Susan Randolph, Jackson State Community College, TN

Peter Romine, Alabama A&M University, AL

John Seeger, Bentley College, MA

Richard Stamper, Rose-Hulman Institute of Technology, IN

Linda E. Swayne, University of North Carolina at Charlotte, NC
