

Journal of SMET Education: Innovations and Research

Values

- develop student thinking and problem solving
- integrate real world issues with theories in SMET
- respond to employer needs and expectations
- use educational research and student assessment to inform innovations in education

Mission Statement

To promote high-quality undergraduate education in science, mathematics, engineering, and technology through peer reviewed articles that provide

- Case studies and other innovations in education
 - Well founded in SMET content
 - Informed by educational research
 - Tested through assessment of impact on student learning
- Results from educational research that informs teaching and learning in SMET
- Recent developments that impact SMET education in such areas as policy and industry needs
